<p>Dear Madam & Sir,</p> <p>We are pleased to hear that your company is doing well. We would like to express our sincere gratitude for your continued support. We will be changing the shape of the connectors that are supplied to you. Along with that, we have also changed the model of the connectors. We have mentioned the changes as follows. Thank you for your understanding and co-operation.</p> <p style="text-align: right;">Sincerely yours</p> <ol style="list-style-type: none"> Target Product, Model Details will be provided in a separate document. Contents for change In consideration of environment (lead free, light weight), the materials used for end fittings and piping connection parts will be changed from brass to duralumin and lead-free easy cutting aluminum. These products are electroless nickel plated. All taper screws have coating seals. <div style="text-align: center;">  <p style="display: flex; justify-content: space-around; margin-top: 10px;"> <u>Before</u> <u>After</u> </p> </div> <ol style="list-style-type: none"> Change period Deliveries scheduled to start from August 2024. Remarks There is no effect on the products function, performance and quality.
